FOSTERING CREATIVITY  
& CRITICAL THINKING

# Four Core Literacy Proficiencies

The Developing Core Literacy Proficiencies Program is a student-centered, teacher-empowering ELA program that fosters student creativity and critical thinking essential for success in college, careers, and civic life.

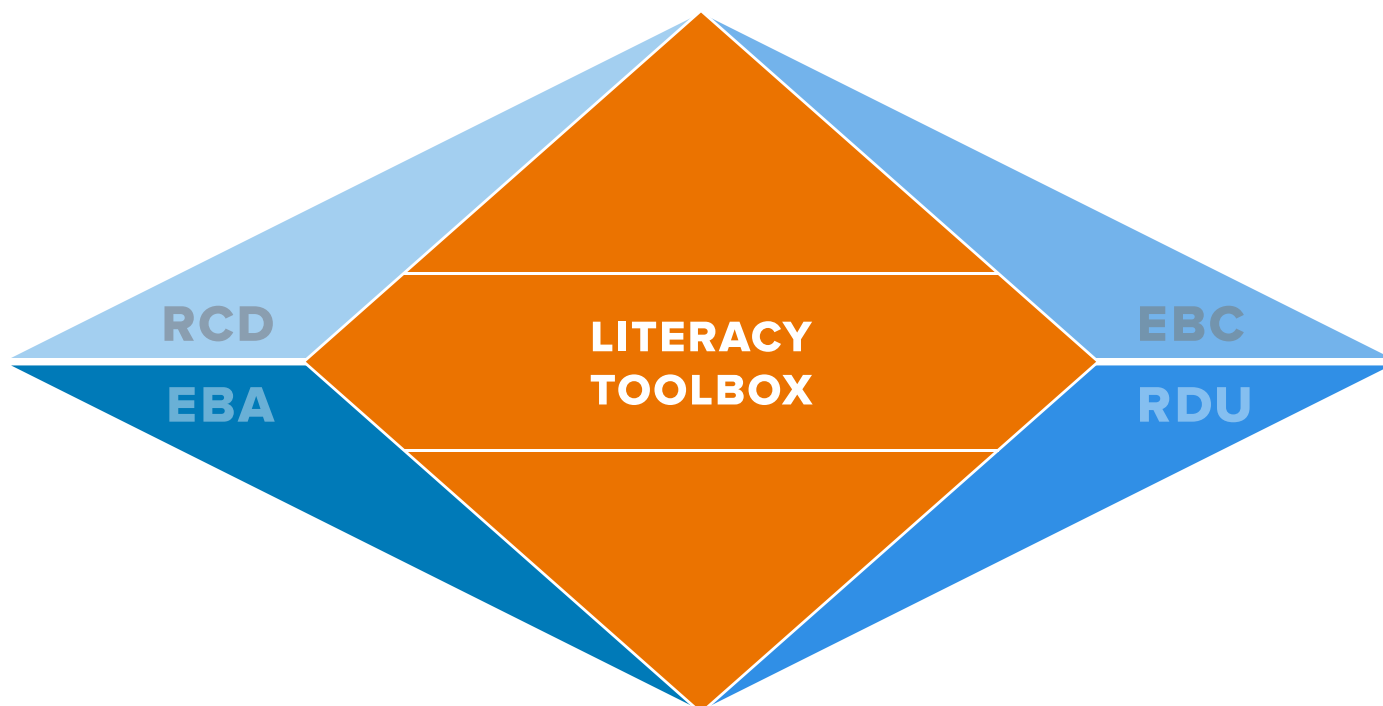

The four literacy proficiencies provide a foundational framework for instruction. The Program includes texts and instructional units to introduce and develop each proficiency.

# Knowledge, Literacy Skills and Academic Habits

## ***A Comprehensive Framework for Instruction and Assessment***

The program builds content and conceptual **Knowledge**, and develops 20 **Literacy Skills** and 12 **Academic Habits** essential for success in college and career. These **Skills**, **Habits** and **Knowledge** form the central instructional and assessment objectives for a year-long progression of learning.

# The Odell Education Literacy Toolbox

## ***A Comprehensive Set of Supporting Materials***

The Program's **Literacy Toolbox** includes graphic organizers, informational handouts, rubrics and checklists to support student learning and to evaluate progress. Each tool has been carefully designed for flexible use across the four core units and in extended instructional contexts with a variety of learners. The Literacy Toolbox is provided in Teacher and Student Editions.

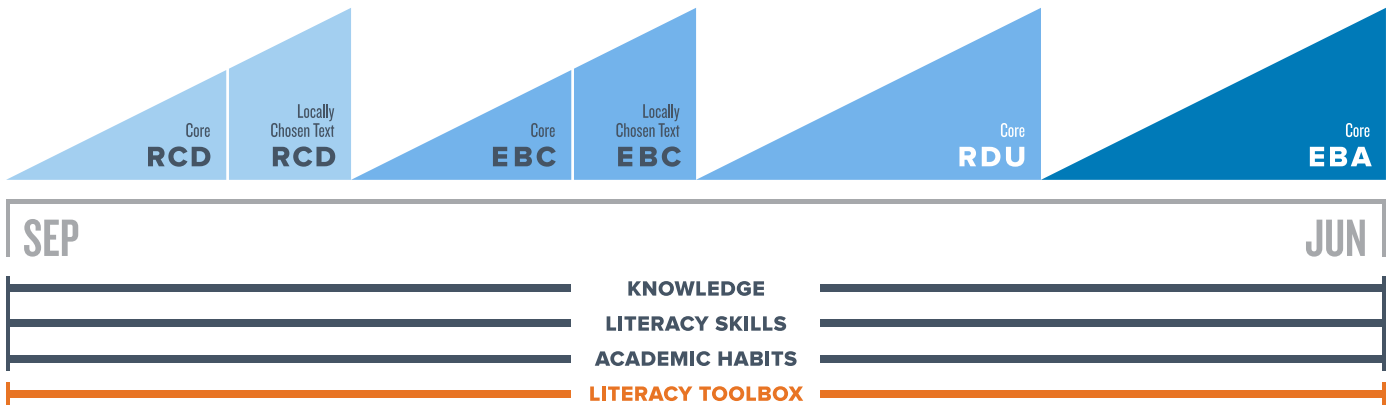

# Innovative Instructional Design

## ***Multiple Uses and Models of Implementation***

The innovative Program is flexible and adaptable, empowering educators to personalize the curriculum to meet the needs of their classrooms.

The CLP Program can be used as:

- A **coherent framework** for a comprehensive Grades 6-12 literacy program
- The **foundation** of year-long ELA curriculum
- **Supplemental instruction** for enrichment and intervention
- **Drop-in units** within existing curricular sequences
- **Models** for locally-developed curriculum and teacher training
- A **resource bank** of adaptable graphic organizers, handouts, instructional activities, lesson sequences, assessment tools, and texts
- A **framework** and set of resources for teaching literacy across content areas

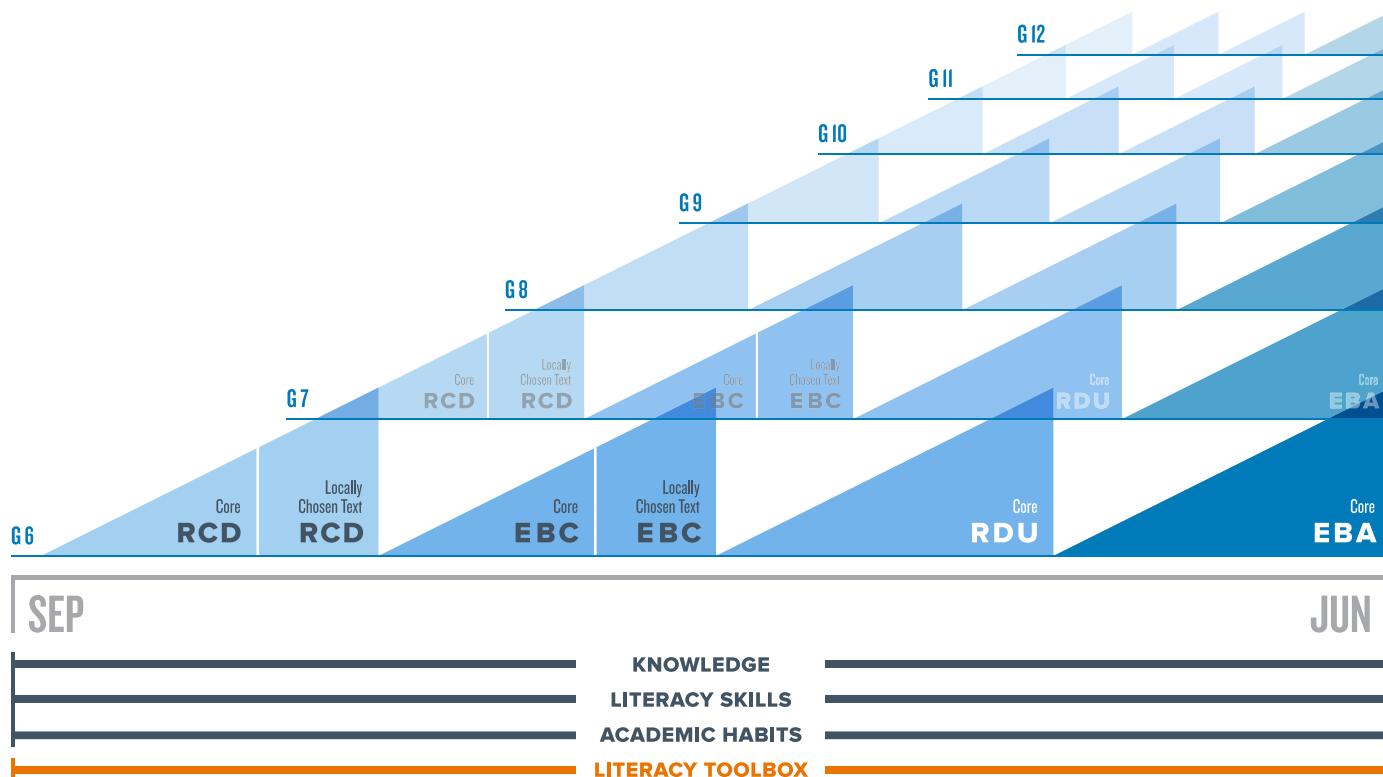

# Framework for Year-Long Instruction

The foundational framework of the Program’s instructional objectives, activities, and supporting materials can be extended to additional locally chosen texts to create a personalized, comprehensive year-long learning progression.

Extension activities with locally chosen texts can occur in a variety of ways: from accountable independent reading, to shorter lessons with additional topically-related texts, to text-based units built around locally chosen novels.

The Program supports teachers in the design and delivery of their personalized year of instruction with a suite of resources and models.

# Coherent Literacy Instruction for Grades 6-12

The spiraling curriculum of the CLP Program provides coherence for student learning, teacher planning, and school and district curriculum across grades 6-12. Students continue their development of the core proficiencies working each year with increasing sophistication and independence, and with more complex topics and texts.

**About**

Odell Education (OE) is dedicated to fostering creativity and critical thinking. OE has developed nationally validated and acclaimed literacy curriculum, and collaborates with schools, states and organizations on assessments, curriculum and professional development.
